## **ANNEXURE-V- MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

### **INDUSTRY OVERVIEW**

The past year commenced with elevated global uncertainty, shaped by evolving trade policies, geopolitical tensions and uneven economic growth across regions. The world GDP grew at a rate of 3.4% in 2025. While moderating inflation and continued digital investments provided pockets of resilience, global GDP growth remained subdued, with enterprises exercising greater caution in discretionary spending. Technology spending faced sharper scrutiny, with decisions tied to clear business outcomes, productivity gains, and cost optimisation.

In recent months, new geopolitical tensions have emerged as a significant source of uncertainty for the global economy, particularly through disruptions to energy markets and global trade flows. The conflict has led to volatility in oil and gas prices due to supply risks and logistical constraints in critical transit routes, which has translated into higher input costs across industries and contributed to renewed inflationary pressures in several economies. Elevated energy prices have weighed on consumer purchasing power and corporate margins, while heightened geopolitical risk has increased financial market volatility, tightened financial conditions, and dampened investment sentiment globally. The broader global economy has experienced slower growth momentum and increased downside risks to the medium-term outlook, prompting IMF to lower its 2026 global growth projection by 0.2% to 3.1%<sup>1</sup>.

Despite persistent macroeconomic headwinds, customers continued to demonstrate strong conviction in sustained technology investments, reinforcing confidence in the medium term outlook. Demand was primarily driven by technology-led transformation initiatives, with investments focused on scaling AI adoption, modernising core systems and data infrastructure, enhancing operational efficiency and resilience as well as ensuring regulatory compliance. Despite a challenging macro environment, enterprises continued to prioritise technology as a strategic lever for competitiveness and long-term transformation.

FY 2026 marked a pivotal year for enterprise AI adoption across industries, as organisations increasingly transitioned from experimentation to scaled deployment for the first time since the emergence of generative AI in late 2022. AI increasingly became integral to customer engagements and solution design, shaping demand conversations during the year. At the same time, organizations sought to fund AI programmes through savings generated from cost optimization and vendor consolidation initiatives, placing greater emphasis on delivering measurable returns on investment.

The global Information Technology industry witnessed stable growth in FY 2025–26, driven by strong demand for digital transformation, cloud computing, and artificial intelligence (AI). Despite macroeconomic uncertainty and geopolitical tensions, global IT spending grew to over USD 5 trillion. Enterprises prioritized investments in cloud migration, cybersecurity, and automation to enhance resilience and operational efficiency.

Generative AI (GenAI) emerged as a key growth catalyst, with businesses adopting AI-powered tools across customer service, software development, and data analytics. Hybrid and remote work models continued to shape demand for digital infrastructure, while edge computing and Internet of Things (IoT) solutions gained momentum across sectors like manufacturing, retail, and healthcare.

India's IT sector remained resilient, with estimated industry revenues reaching USD 253 billion, according to NASSCOM. Export-driven services remained steady, while domestic demand for digital and cloud services continued to rise. Key growth areas included data engineering, AI/ML, cybersecurity, and enterprise application services, supported by a growing tech talent base and favourable government initiatives.

Looking ahead, the IT industry is expected to maintain moderate growth, with continued focus on AI-led innovation, digital experience platforms, and sustainable IT solutions. While cost pressures and regulatory challenges may affect short-term dynamics, technology remains a strategic priority for businesses aiming to drive agility and long-term value.

### Disclosure of relationship between Directors inter-se:

In terms of Schedule V(C)(2)(e) and Regulation 36(3) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 none of the four Independent Directors (Non-Executive Directors) are related to each other nor related to any of the Executive Directors of your Company.

Mr. Prakash R Parikh, CMD of your company is Husband of Mrs. Kalpana Parikh, WTD hence they are related to each other being Husband and Wife respectively. Mr. Prerak Prakash Parikh is Son of Promoter Prakash Parikh and Kalpana Parikh. Mrs. Pujan Biren Zaverchand is Daughter of Promoter Prakash Parikh and Kalpana Parikh and Sister of Mr. Prerak Prakash Parikh so Executive directors are related to each other.

### Independent Directors

Eight Directors out of Four Directors of the Company are Independent Directors as per the criteria specified in the Listing Regulations and the Companies Act, 2013 (As amended). All Independent Directors make annual disclosure of their Independence to the Company.

None of the Independent Directors has any material pecuniary relationship or transactions with the Company or its subsidiaries, apart from receiving sitting fee and commission as an Independent Director.

As required under Rule 6(3) of the Companies (Appointment and Qualification of Directors) Rules, 2014, all the Independent Directors have registered themselves with the Independent Directors Databank maintained by the Indian Institute of Corporate Affairs.

## 3. COMMITTEES OF THE BOARD:

The Board Committees play a vital role in ensuring sound Corporate Governance practices. The Committees are constituted to handle specific activities and ensure speedy resolution of diverse matters. The Board Committees are set up under the formal approval of the Board to carry out clearly defined roles which are considered to be performed by members of the Board, as a part of good governance practice. The Board supervises the execution of its responsibilities by the Committees and is responsible for their action. The minutes of the meetings of all the Committees are placed before the Board for review.

### (a) Audit Committee :

Apart from all the matters provided in 18 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and section 177 of the Companies Act 2013, the Audit committee reviews report of the internal auditor, meets statutory auditors as and when required and discusses their findings, suggestions, observations and other related matters. It also reviews major accounting policies followed by the company. The Chief Financial Officer, representatives of Statutory Auditors, Internal Auditor and Finance & Accounts department are invited to the meetings of the Audit Committee.

**Composition and Attendance:**

The Audit Committee comprises of three (3) Directors and all of them are Non-Executive Independent Director. The Constitution of the Committee meets the requirements of Section 177 of the Companies Act, 2013 as well as Regulation 18 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

## **INDEPENDENT AUDITOR'S REPORT**

### **TO THE MEMBERS OF SIGMA SOLVE LIMITED**

#### **Report on the Audit of the Standalone Financial Statements**

##### **Opinion**

We have audited the accompanying standalone financial statements of Sigma Solve Limited (the 'Company'), which comprise the Standalone Balance Sheet as at 31<sup>st</sup> March 2026, the Standalone Statement of Profit and Loss, the Standalone Cash Flow Statement and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March, 2026 and its Standalone Profit and Standalone Cash Flows for the year ended on that date.

##### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### **Key Audit Matters**

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the Standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no significant matters that are required to be disclosed here.

##### **Information other than Standalone Financial Statements and the Auditor's Report thereon**

The company's board is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's information, but does not include the Standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of standalone financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report the fact. We have nothing to report in this regard.

### **Management's and Board of Directors' Responsibilities for the Standalone Financial Statements**

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Management's and Board of Directors' are responsible for assessing the Company's ability to continue as a going Concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the company's financial reporting process.

### **Auditor's Responsibility**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting

from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the act, we are also responsible for explaining our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- **Materiality**

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

- **Communication with Management**

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Report on Other Legal and Regulatory Requirements**

1. As required by 'the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act we give in the **"Annexure A"**, the statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the standalone financial statements.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Companies Act, 2013.
- e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2026 from being appointed as a director in terms of section 164(2) of the Companies Act, 2013;
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “**Annexure B**” to this report;
- g) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its consolidated financial statement.
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year 2025-26.
  - iv. The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts,
- l. No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities 'Intermediaries', with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company 'Ultimate Beneficiaries' or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- II. No funds have been received by the company from any person(s) or entity(ies), including foreign entities 'Funding Parties', with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party 'Ultimate Beneficiaries' or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- III. Based on audit procedures carried out by us, that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us believe that the representations under sub-clause (i) and (ii) contain any material misstatement.
- h) The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Companies Act, 2013.
- i) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended: In our opinion and to the best of our information and according to the explanation given to us, the remuneration paid by the company to its directors during the year is in accordance with the provision of Section 197 of the Act.
- j) Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

**ANNEXURE “B” TO THE AUDITOR’S REPORT****TO THE INDEPENDENT AUDITOR’S ON THE STANDALONE FINANCIAL STATEMENTS OF SIGMA SOLVE LIMITED FOR THE YEAR ENDED 31 MARCH 2026****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of Sigma Solve Limited (“the Company”) as of March 31, 2026 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Company’s Management is responsible for establishing and maintaining Internal Financial Controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate Internal Financial Controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditor’s Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Control system over Financial Reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone Financial Statements for external purposes in accordance with generally accepted accounting principles.

A Company's Internal Financial Control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone Financial Statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the guidance note on audit of Internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India.

\*The Company has not revalued its property plant and equipment during the year and hence there is no movement for revaluation shown separately.

\*During the year ended 31 March 2026, the Company entered into a lease agreement for office premises and recognized a Right-of-Use (ROU) asset and corresponding lease liability in accordance with Ind AS 116 - Leases. Accordingly, depreciation on the ROU asset and finance cost on the lease liability have been recognized in the Statement of Profit and Loss during the period of the lease.

Subsequently, the Company terminated the lease agreement during the year and derecognized the related Right-of-Use asset and lease liability. Upon such termination, the Company recognized a loss of ₹3,685.12 in the Statement of Profit and Loss, representing the difference between the carrying amount of the lease liability and the Right-of-Use asset at the date of termination.

# Fair value of financial assets and liabilities which are measured at amortized cost is not materially different from the carrying value (i.e. amortized cost). Accordingly, the fair value has not been disclosed separately.

#### Fair Value Hierarchy of Financial Assets and Liabilities:

**Level 1:** Level 1 hierarchy includes financial instrument measured using quoted price such as quoted price for equity security on security exchange.

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

#### C. Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk, foreign currency risk and interest rate risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:

##### Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable and other receivables. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

**Trade and other receivables**

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Ratings of customers are periodically monitored. The expected credit loss allowance is based on the ageing of the days receivables which are past due and the rates derived based on past history of defaults in the provision matrix.

**Other financial assets - investments, cash, loans and security deposits and other bank balances**

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors. Further, the Company maintains its Cash and cash equivalents and Bank deposits with banks / financial institutions having good reputation, good past track record and high quality credit rating and also reviews their credit-worthiness on an on-going basis.

**Liquidity Risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. Also, the Company has unutilized credit limits with banks.

Exposure to liquidity risk

The table below provides details regarding the undiscounted contractual maturities of significant financial liabilities as at reporting date. The amounts are gross / undiscounted values and exclude the impact of netting agreements.

**Foreign Currency Risk**

The Company's exchange risk arises from its foreign operations, foreign currency revenues and expenses (primarily in U.S. Dollars). A significant portion of the Company's revenues are in these foreign currencies, while a significant portion of its costs are in Indian Rupees. As a result, if the value of the Indian Rupee appreciates relative to these foreign currencies, the Company's revenues measured in Rupees may decrease. The exchange rate between the Indian Rupee and these foreign currencies has changed substantially in recent periods and may continue to fluctuate substantially in the future. The following table presents foreign currency risk from non-derivative financial instruments as on reporting dates:

|                      | (₹ in Lakhs)          |                       |
|----------------------|-----------------------|-----------------------|

| Trade Receivables    | \$0.03                | \$3.27                |
| <b>Total</b>         | <b>\$0.03</b>         | <b>\$3.27</b>         |

The Company is mainly exposed to changes in USD. The below table demonstrates the sensitivity to a 5% increase or decrease in the USD against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 5% represents management's assessment of reasonably possible change in foreign exchange rate.

| Change in USD Rate | Profit or (Loss) Before Tax |         | Equity (net of tax) |         |
|--------------------|-----------------------------|---------|---------------------|---------|

**Interest Rate Risk**

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

**Sensitivity analysis**

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of change in interest rates. Since no interest rate exposure is perceived on fixed rate loans, the same have been excluded from the sensitivity analysis. A reasonably possible change of 50 basis points in interest rates at the reporting date would have increased (decreased) Equity and Profit or Loss by the amount shown below:

| (₹ in Lakhs)                               |                                |                   |                        |                   |

| <b>A description of methods used for sensitivity analysis and its Limitations:</b><br>Sensitivity analysis is performed by varying a single parameter while keeping all the other parameters unchanged. Sensitivity analysis fails to focus on the interrelationships between underlying parameters. Hence, the results may vary if two or more variables are changed simultaneously. The method used does not indicate anything about the likelihood of change in any parameter and the extent of the change, if any.<br><br>As our defined benefit obligation encompasses gratuity, it is imperative to acknowledge and address the associated risks.<br>These risks are delineated below for comprehensive understanding. |                          |                          |
| <b>A. Actuarial Risk:</b><br>It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                          |                          |
| <b>Adverse Salary Growth Experience:</b> Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                          |                          |

**Variability in mortality rates:** If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

**Variability in withdrawal rates:** If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

#### **B. Investment Risk:**

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

#### **C. Liquidity Risk:**

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the Company there can be strain on the cashflows.

#### **D. Market Risk:**

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

#### **E. Legislative Risk:**

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

### **Authorization of financial statements**

The Financial Statements (the financial statements) were approved and authorized for issue in accordance with a resolution passed in Board of Directors meeting held on 23rd May 2025.

### **Note 2 – Material Accounting Policies Information**

This note provides a list of the material accounting policies adopted in the preparation of these Financial Statements. Accounting policies have been consistently applied to all the years presented except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

#### **(a) Basis of Compliance**

The Financial Statements have been prepared in accordance and comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter from time to time.

#### **(b) Basis of Preparation of Financial Statement**

These standalone financial statements have been prepared as a going concern on accrual basis of accounting using historical cost basis except for certain financial instruments i.e. investments in Mutual Funds are measured at fair value or amortized cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realization in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

#### **(c) Use of estimates and judgements**

The preparation of the Standalone Financial Statements requires management to make estimates, assumptions and judgments that affect the reported balances of assets and liabilities and disclosures as at the date of the Financial Statements and the reported amounts of income and expense for the periods presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates considering different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

#### **(d) Property, Plant and Equipment and Intangible Assets**

Property, Plant and Equipment are stated at cost of acquisition/construction net of recoverable taxes and less accumulated depreciation/amortization and impairment loss, if any. Cost includes cost of acquisition, construction, installation, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use, net of recoverable taxes. The Company capitalizes to project assets all the cost directly attributable and ascertainable, to completing the project.

All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred. If significant parts of an item of property, plant and equipment have different useful lives,

then they are accounted for as separate items (major components) of property, plant and equipment. The carrying amount of any component accounted for as a separate asset is de-recognized when replaced.

Any item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is charged to revenue in the Statement of Profit and Loss when the asset is derecognized.

#### **Capital work in Progress under development**

Projects under commissioning and other CWIP under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

Subsequent expenditures relating to property, plant and equipment are capitalized only when it is probable that future economic benefit associated with these will flow to the Company and the cost of the item can be measured reliably. Advances given to acquire property, plant and equipment are recorded as non-current assets and subsequently transferred to CWIP on acquisition of related assets.

#### **Intangible assets**

Intangible assets with finite useful lives are carried at cost less accumulated amortization and impairment losses, if any. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the tax authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible asset after its purchase / completion is recognized as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such Expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.

#### **Depreciation, Estimated Useful Lives and Residual Values**

Depreciation is calculated to systematically allocate the cost of property, plant and equipment and intangible assets net of the estimated residual values over the estimated useful life. Freehold land is not depreciated. Depreciation on property, plant and equipment is provided using Written down Value method over the useful life of assets, which is as stated in Schedule II of Companies Act, 2013 or based on the certificate of technical engineers as accepted by the Management of Company. Intangible assets are amortized over their respective individual estimated useful life on a Straight-Line Method commencing from the date the asset is available to the Company for its use. The management estimates the useful life as follows: -

| <b>Class of Assets*</b> | <b>Useful Life of assets in Years</b> |
|-------------------------|---------------------------------------|
| Air Conditioner         | 15 years                              |
| Computers               | 3 years                               |
| Motor Vehicle           | 8/10 years                            |
| Mobile                  | 5 years                               |
| Office Equipment        | 10 years                              |
| CCTV Camera             | 5 years                               |
| Furniture               | 10 Years                              |
| Building                | 30 years                              |
| Software                | 3 Years                               |

\* For these classes of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets.

The management believes that above useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The useful lives and residual values are reviewed by the management at each financial year end and revised, if appropriate. In case of a revision, the unamortized depreciable amount (remaining net value of assets) is charged over the revised remaining useful lives.

The residual values, useful lives and methods of depreciation of property, plant and equipment (PPE) / intangible assets are reviewed at the end of each financial year and adjusted prospectively if appropriate. Depreciation on items of property, plant and equipment acquired / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.

**(e) Impairment of non-financial assets**

For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit ("CGU"). The carrying values of assets / CGU at each Balance sheet date are reviewed to determine whether there is any indication that an asset may be impaired. If any indication of such impairment exists, the recoverable amount of such assets / CGU is estimated and in case the carrying amount of these assets exceeds their recoverable amount, an impairment loss is recognized in the Statement of Profit and Loss. The recoverable amount is the higher of the net selling price and their value in use. Value in use is arrived at by discounting the future Cash Flows to their present value based on an appropriate discount factor. Assessment is also done at each Balance sheet date as to whether there is indication that an impairment loss recognized for an asset in prior accounting periods no longer exists or may have decreased, consequent to which such reversal of impairment loss is recognized in the Statement of Profit and Loss.

**(f) Investment in subsidiaries, joint venture and associates**

Investments in subsidiaries, joint venture and associates are carried at cost less accumulated impairment losses, if any. Cost includes the purchase price and other costs directly attributable to the acquisition of investments. On disposal of investments in subsidiaries, joint venture and associates, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

**(g) Financial Instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**Financial Asset****Initial recognition and measurement**

A financial asset is recognized in the Balance Sheet when the Company becomes party to the contractual provisions of the instrument. At initial recognition, the Company measures a financial asset at its fair value plus or minus, in the case of a financial asset not measured at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset except trade receivables (not containing significant financing component) are measured at transaction price.

**Subsequent measurement**

For purpose of subsequent measurement, financial assets are classified as under:

- Financial assets measured at amortized cost;
- Financial assets measured at fair value through profit or loss (FVTPL); and
- Financial assets measured at fair value through other comprehensive income (FVTOCI).

The Company classifies its financial assets in the above-mentioned categories based on:

- The Company's business model for managing the financial assets, and
- The contractual cash flows characteristics of the financial asset.

A financial asset is measured at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- The contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. A gain or loss on a debt investment that is subsequently measured at amortized cost is recognized in the Statement of Profit and Loss when the asset is derecognized or impaired.

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- The financial asset is held within a business model whose objective is achieved by both collecting the contractual cash flows and selling financial assets and
- The assets' contractual cash flows represent SPPI.

A financial asset is measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income. In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL.

However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

### Equity Investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

For debt instrument, movements in the carrying amount are recorded through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains or losses which are recognized in the Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to the Statement of Profit and Loss. Interest income from these financial assets is included in other income using the EIR method.

### Derivatives

The Company uses derivative financial instruments i.e. forward contracts, swaps, commodity hedging contracts and option contracts, to hedge its price fluctuation risk, foreign exchange risk and interest rate risk. Such derivative financial instruments are initially recognised at fair values on the date on which a derivatives contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in fair value of derivatives are taken directly to the statement of Profit and Loss.

### De-recognition

A financial asset is derecognized only when the Company:

- has transferred the rights to receive Cash Flows from the financial asset; or
- Retains the contractual rights to receive the Cash Flows of the financial asset but assumes a contractual obligation to pay the Cash Flows to one or more recipients.

Where the Company transfers an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. Where the Company has transferred substantially all risks and rewards of ownership, the financial asset is derecognized. Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized. Where the Company has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

### Impairment of Financial Assets

The Company assesses impairment based on expected credit loss (ECL) model to the following:

- Financial assets measured at amortized cost
- Financial assets measured at fair value through other comprehensive income

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or

- Life time expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables. Under the simplified approach, the Company is not required to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

### **Leases**

The Company assess whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether (i) the contract involves the use of identified asset; (ii) the Company has substantially all of the economic benefits from the use of the asset through the period of lease and (iii) the Company has right to direct the use of the asset.

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. The Company uses judgement in assessing the lease term (including anticipated renewals / termination options).

### **Short-term leases and leases of low-value assets:**

The Company has applied the recognition exemption for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value. The Company recognizes the lease payments associated with these leases as an expense in Standalone Statement of Profit and Loss over the lease term.

### **Financial Liabilities**

#### **Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities measured at fair value through profit or loss and financial liabilities measured at amortized cost as appropriate. All financial liabilities are recognized initially at fair value and, in case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables and loan and borrowings.

#### **Subsequent measurement**

- Financial liabilities measured at amortized cost
- Financial liabilities subsequently measured at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 - Financial Instruments are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains / losses are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the Statement of Profit and Loss.

The Company has not designated any financial liability as at fair value through profit and loss. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period. The EIR amortization is included as finance costs in the Statement of Profit and Loss. Changes to the carrying amount of a financial liability as a result of renegotiation or modification of terms that do not result in derecognition of the financial liability, is recognized in the Statement of Profit and Loss.

### **De-recognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

#### **Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

#### **Fair Value Measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, if market participants act in their best economic interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial Statements are categorized within the fair value hierarchy, described as under, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

#### **(h) Employee Benefits**

Employee benefits consist of provident fund, gratuity fund, and other short-term employee benefits.

##### **Post-Employment Benefit Plans**

##### **Defined Contribution Plan:**

Contribution towards provident fund for eligible employees are accrued in accordance with applicable statutes and deposited with the regulatory provident fund authorities (Government administered provident fund scheme). The Company does not carry any other obligation apart from the monthly contribution. The Company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

##### **Defined Benefit Plan:**

The Company provides for gratuity, a defined benefit plan covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The cost of providing benefits is actuarially determined using the projected unit credit method, with actuarial valuations being carried out at each Balance sheet date.

The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as reduced by the fair value of scheme assets. The present value of the said obligation is determined by discounting the estimated future cash outflows, using market yields of government bonds of equivalent term and currency to the liability.

The interest income / (expense) are calculated by applying the discount rate to the net defined benefit liability or asset. The net interest income / (expense) on the net defined benefit liability is recognized in the Statement of Profit and Loss.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling (if any), are recognized immediately in the Balance Sheet with a corresponding charge or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in the Statement of Profit and Loss as past service cost.

#### **Long Term Employee Benefits:**

The liability in respect of accrued leave benefits which are expected to be availed or en-cashed beyond 12 months from the end of the year, is treated as long term employee benefits. The Company's liability is actuarially determined by qualified actuary at Balance Sheet date by using the Projected Unit Credit method. Actuarial losses/ gains are recognized in the Statement of Profit and Loss in the year in which they arise.

#### **Short Term Employee Benefits**

The undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered by employees is recognized during the period when the employee renders the services. Short term employee benefits include salary and wages, bonus, incentive and ex-gratia and also include accrued leave benefits, which are expected to be availed or en-cashed within 12 months from the end of the year.

#### **(i) Investments in subsidiaries and associates**

Equity investments in subsidiaries are stated at cost less impairment as per Ind AS 27. The Company tests these investments for impairment in accordance with the policy applicable to 'Impairment of non-financial assets'. Where the carrying amount of an investment or CGU to which the investment relates is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference is recognized in the Statement of Profit and Loss.

Profit/loss on sale of investments are recognized on the date of the transaction of sale and are computed with reference to the original cost of the investment sold.

#### **(j) Borrowing**

Borrowings are initially recognized at fair value, net of transaction costs incurred. Interest bearing loans are subsequently measured at amortized cost by using the effective interest method (EIR method). Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of borrowing using the effective interest method (EIR). The EIR Amortization is included as Finance Costs in the Statement of Profit and Loss.

Borrowings are derecognized from the Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other income or other expenses.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

#### **(k) Borrowing Cost**

Borrowing costs include interest and amortization of ancillary costs incurred to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilized for qualifying assets, pertaining to the period from commencement of activities relating to construction/ development of the qualifying asset up to the date of capitalization of such asset are added to the cost of the assets. Any income earned on the temporary deployment/ investment of those borrowings is deducted from the borrowing costs so incurred. Capitalization of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use.

#### **(l) Foreign Currency Transactions**

Items included in the Financial Statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The Financial Statements are presented in Indian rupee (INR), which is the functional and presentation currency of the Company.

Foreign currency transactions are translated into the functional currency using the exchange rates at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the year-end exchange rates are generally recognized in profit or loss. All foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other income or other expenses. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

**(m) Revenue from Operations**

The Company earns primarily from providing services of Information Technology (IT) solutions and Transaction services.

Revenue from services rendered is recognized when relevant services have been rendered, as per the agreed terms with the customer, combined with its accounting policies. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from transaction services and other service contracts is recognized based on transactions processed or manpower deployed.

**Other Income:**

Interest income is recognized using effective interest rate (EIR) method. Dividend income is recognized, when the right to receive the dividend is established by the reporting date. Insurance claims are accounted for on the basis of claims admitted and to the extent that there is no uncertainty in receiving the claims.

**(n) Taxation**

Income tax expenses comprise current tax (i.e. amount of tax for the period determined in accordance with the Income Tax Law) and deferred tax charge or credit (reflecting the tax effects of temporary differences between accounting income and taxable income for the period). Income tax expenses are recognized in Statement of Profit and Loss except tax expenses related to items recognized directly in reserves (including other comprehensive income) which are recognized with the underlying items.

**Income Taxes**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period i.e. as per the provisions of the Income Tax Act, 1961, as amended from time to time. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation including amount expected to be paid/recovered for uncertain tax positions. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Advance taxes and provisions for current income taxes are presented in the Balance Sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction for relevant tax paying units and where the Company is able to and intends to settle the asset and liability on a net basis. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

**Deferred Taxes**

Deferred tax is provided in full on temporary difference arising between the tax bases of the assets and liabilities and their carrying amounts in Financial Statements at the reporting date. Deferred tax is recognized in respect of deductible temporary differences being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods., the carry forward of unused tax losses and the carry forward of unused tax credits.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Any tax credit available is recognized as deferred tax to the extent that it is probable that future taxable profit will be available against which the unused tax credits can be utilized. The said asset is created by way of credit to the Statement of Profit and Loss and shown under the head deferred tax asset.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

**(o) Provisions, Contingent Liabilities and Contingent Assets**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. The estimates of outcome and financial effect are determined by the judgment of the management, supplemented by experience of similar transactions and, in some cases, reports from independent experts.

Contingent liabilities are not provided for and if material, are disclosed by way of notes to Financial Statements. A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent assets are not recognized in Financial Statements. They are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs. A contingent asset is disclosed by way of notes to Financial Statements, where an inflow of economic benefits is probable. Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

**(p) Rounding off**

All amounts disclosed in the standalone financial statements and notes have been rounded to the nearest Lakhs (up to two decimals) except when otherwise indicated.

**(q) New and revised Indian Accounting Standards in issue but not yet effective**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

## **INDEPENDENT AUDITOR'S REPORT**

### **TO THE MEMBERS OF SIGMA SOLVE LIMITED**

#### **Report on the Audit of the Consolidated Financial Statements**

##### **Opinion**

We have audited the accompanying consolidated financial statements of Sigma Solve Limited (the 'Company'), which comprise the consolidated Balance Sheet as at 31<sup>st</sup> March 2026, the consolidated Statement of Profit and Loss, the consolidated Cash Flow Statement, the statement of changes in equity for the year ended 31<sup>st</sup> March 2026 and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March, 2026 and its consolidated Profit and consolidated Cash Flows and the changes in equity for the year ended on that date.

##### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### **Key Audit Matters**

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no significant matters that are required to be disclosed here.

##### **Information other than Consolidated Financial Statements and the Auditor's Report thereon**

The Holding company's board is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis,

Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report the fact. We have nothing to report in this regard.

### **Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements**

The Holding Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, Management's and Board of Directors' are responsible for assessing the Company's ability to continue as a going Concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the company's financial reporting process.

### **Auditor's Responsibility**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the act, we are also responsible for explaining our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## Other Matters

We did not audit the financial statements/financial information of 1 subsidiary, whose financial statements/financial information reflect total assets of Rs. 13.49 lakh as at 31<sup>st</sup> March 2026, total revenues of Rs 55.00 Lakhs for the year ended on that date, as considered in the consolidated financial statements which have not been audited by us. These financial statements/ financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary is based solely on the reports of the other auditors.

Our opinion in so far as it relates to the balances and affairs of such a subsidiary located outside India is based on the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of this matter with respect to the financial statements/financial information certified by the management.

Our opinion is not modified in respect of this matter.

## **ANNEXURE “B” TO THE AUDITOR’S REPORT**

### **TO THE INDEPENDENT AUDITOR’S ON THE CONSOLIDATED FINANCIAL STATEMENTS OF SIGMA SOLVE LIMITED**

**(Referred to in paragraph 2(f) under ‘Report on other Legal and Regulatory Requirements section of our report to the Members of Sigma Solve Limited of even date)**

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of Sigma Solve Limited (“the Company”) as of 31<sup>st</sup> March 2026 in conjunction with our audit of the consolidated Financial Statements of the Company for the year ended on that date.

### **Management’s Responsibility for Internal Financial Controls**

The Holding Company’s Management is responsible for establishing and maintaining Internal Financial Controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate Internal Financial Controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditor’s Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Control system over Financial Reporting and their operating effectiveness. Our

audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles.

A Company's Internal Financial Control over financial reporting includes those policies and procedures that:

- (4) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (5) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (6) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the consolidated Financial Statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as

| <p>*During the year ended 31 March 2026, the Company entered into a lease agreement for office premises and recognized a Right-of-Use (ROU) asset and corresponding lease liability in accordance with "Ind AS 116 - Leases". Accordingly, depreciation on the ROU asset and finance cost on the lease liability have been recognized in the Statement of Profit and Loss during the period of the lease.</p> <p>Subsequently, the Company terminated the lease agreement during the year and derecognized the related Right-of-Use asset and lease liability. Upon such termination, the Company recognized a loss of ₹3,685.12 in the Statement of Profit and Loss, representing the difference between the carrying amount of the lease liability and the Right-of-Use asset at the date of termination.</p> |                             |                           |                         |                            |                                           |                             |                           |                         |                            |                              |                              |                              |

# Fair value of financial assets and liabilities which are measured at amortized cost is not materially different from the carrying value (i.e. amortized cost). Accordingly, the fair value has not been disclosed separately.

**Fair Value Hierarchy of Financial Assets and Liabilities:**

**Level 1:** Level 1 hierarchy includes financial instrument measured using quoted price such as quoted price for equity security and mutual funds on security exchange.

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

**C. Financial risk management**

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk, foreign currency risk and interest rate risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:

**Credit Risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable and other receivables. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in

financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

#### Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Ratings of customers are periodically monitored. The expected credit loss allowance is based on the ageing of the days receivables which are past due and the rates derived based on past history of defaults in the provision matrix.

#### Other financial assets - investments, cash, derivative assets, loans and security deposits and other bank balances

The Group limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Group does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors. Further, the Group maintains its Cash and cash equivalents and Bank deposits with banks / financial institutions having good reputation, good past track record and high quality credit rating and also reviews their credit-worthiness on an on-going basis.

#### Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. #### Foreign Currency Risk

The Group's exchange risk arises from its foreign operations, foreign currency revenues and expenses (primarily in U.S. Dollars). A significant portion of the Group's revenues are in these foreign currencies, while a significant portion of its costs are in Indian Rupees. As a result, if the value of the Indian Rupee appreciates relative to these foreign currencies, the Group's revenues measured in Rupees may decrease. The exchange rate between the Indian Rupee and these foreign currencies has changed substantially in recent periods and may continue to fluctuate substantially in the future. The following table presents foreign currency risk from non-derivative financial instruments as on reporting dates:

| <b>Total</b>         | <b>\$0.03</b>         | <b>\$3.27</b>         |

There are no forward contracts outstanding as on reporting date.

The Group is mainly exposed to changes in USD. The below table demonstrates the sensitivity to a 5% increase or decrease in the USD against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 5% represents management's assessment of reasonably possible change in foreign exchange rate.

#### Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

#### Sensitivity analysis

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of change in interest rates. Since no interest rate exposure is perceived on fixed rate loans, the same have been excluded from the sensitivity

analysis. A reasonably possible change of 50 basis points in interest rates at the reporting date would have increased (decreased) Equity and Profit or Loss by the amount shown below:

#### Price Risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Company has adopted disciplined practices including position sizing, diversification, valuation, loss prevention, due diligence, and exit strategies in order to mitigate losses. The Company is exposed price risk arising from investments in mutual funds recognised at FVTPL.

#### A description of methods used for sensitivity analysis and its

##### Limitations:

Sensitivity analysis is performed by varying a single parameter while keeping all the other parameters unchanged. Sensitivity analysis fails to focus on the interrelationships between underlying parameters. Hence, the results may vary if two or more variables are changed simultaneously. The method used does not indicate anything about the likelihood of change in any parameter and the extent of the change, if any.

As our defined benefit obligation encompasses gratuity, it is imperative to acknowledge and address the associated risks.

These risks are delineated below for comprehensive understanding.

##### A. Actuarial Risk:

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

**Adverse Salary Growth Experience:** Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

**Variability in mortality rates:** If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

**Variability in withdrawal rates:** If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

##### B. Investment Risk:

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter- valuation period.

##### C. Liquidity Risk:

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the Group there can be strain on the cashflows.

##### D. Market Risk:

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

##### E. Legislative Risk:

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

**SIGMA SOLVE LIMITED (CIN:- L72200GJ2010PLC060478)****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED ON 31st March 2026****Note 32****Capital Management**

The Group's objectives when managing capital are to:

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- Maintain an optimal capital structure to reduce the cost of capital.

The Board of Directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

The Group monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans, lease liabilities and borrowings, less cash and cash equivalents. Adjusted equity comprises all components of equity. The Group's adjusted net debt to equity ratio is as follows:
